Former President of Hungarian Republic Makes Escape From Hungary.

BERLIN, July 18 (By the Associated Press) —Count Michael Karshyl, former president of the Hungarian republic, has arrived in lialy after several attempts to leave Hungary and will go to America according to a Vienna dispatch to the Kreuz Zeitung.

Several weeks ago, it is said, Count Karolyi ascaped to Austria, but he was made prisoner by the Austrians and returned to Budapest The count, the dispatch adds, then sought and procured the assistance of the Italian military authorities who sent him in charge of a guard to Italy by way of Innsbruck. The Vienna dispatch concludes: "He will, however, have to leave Italy for America immediately."

When the armistice with Austria-Hungary was signed last November. Count Michael Kurolyl, who had been the leader of the Hungarian independent party, proclaimed a Hungarian remibile the remained in office until late in March when he resigned and turned over the authority to the communists hended by Bela Kun. He gave as a reason for his action the plea that he could not recognize the boundaries of Hungary as outlined by the peace conference.

Advices received in peace conference stocked to December 2000.

POSTAL SAVINGS GREW ALL DURING THE WAR

ALL DURING THE WAR

Postal savings deposits forged ahead during the war \$34,000,000, according to a statement just made public by the United States postoffice department. On March 31, 1917, six days prior to our declaration of war, deposits in the United States postal banks footed un \$125,424,686. On Oct 31, 1918, 11 days prior to the signing of the armistice, they had increased to \$159,670,830.

These figures are all the more remarkable when it is recalled that during the same period four intensive Liberty loan campaigns, and an almost continuous drive for the sale of thrift stamps and war savings certificates were carried on. War activities had the complete right of way and an appeal by the postmaster-general for active co-operation on the part of the 200,000 postal employes throughout the country, in all financial and charitable war activities, brought enthusiastic response. Meanwhile, postal savings samply marked time accepting only such business as came to the postoffices unsolicited.

The postal savings hanks are largely patronized by wage-carners of foreign birth. These people are familiar with similar institutions conducted in their native countries and naturally turn to our postal banks to take care of their saving, thus evidencing their unbounded confidence in the United States and its promise to pay back the product of their toil and sacrifice the moment they are the saving of their saving of postal savings depositors to done the american available.

ark for it.

Thousands of postal savings depositors joined the American army and navy, and that many of them made the supreme sacrifice is attested by the volume of death claims that are being paid to heirs of deceased soldlers and sailors on both sides of the Atlantic.
